6th Science- We will be having a refresher on kinetic and potential energy on Tuesday and then get into the properties of waves. That is the topic that we will be spending a majority of the time on over the next two weeks.

Media 6,7, and 8

For the 3rd nine weeks in media we will be examining the role and responsibilities of the presidency and will focus in particular on presidents 1-43. I have planned a project that will encompass all 3 grades in a hopefully fun and interactive way. The goal of this is to discuss and look in depth at the men who have led our country from the beginning up to 2008.

“Be strong and courageous. Do not be afraid; do not be discouraged, for the Lord your God will be with you wherever you go.” Joshua 1:9
