From the Nurse

A few important reminders to keep our school community as healthy as possible:

Students should not come to school if they've experienced any of the following within the past 24 hours:

- Fever
- Vomiting
- Diarrhea

Students must be **fever-free for 24 hours without the use of fever-reducing medications** (such as acetaminophen or ibuprofen) before returning to school. This helps reduce the spread of illness to others.

We encourage families to help support healthy habits by:

- Sending your child to school each day with a **clean, refillable water bottle**
- Reminding your child to **wash their hands frequently**, especially before eating and after using the restroom

It can be challenging to keep children home when they want to be at school, but following these guidelines helps protect our students and staff.

Thank you for your continued partnership keeping our school a healthy place to learn. Please feel free to reach out to the health office if you have any questions or concerns.
